AppSuite

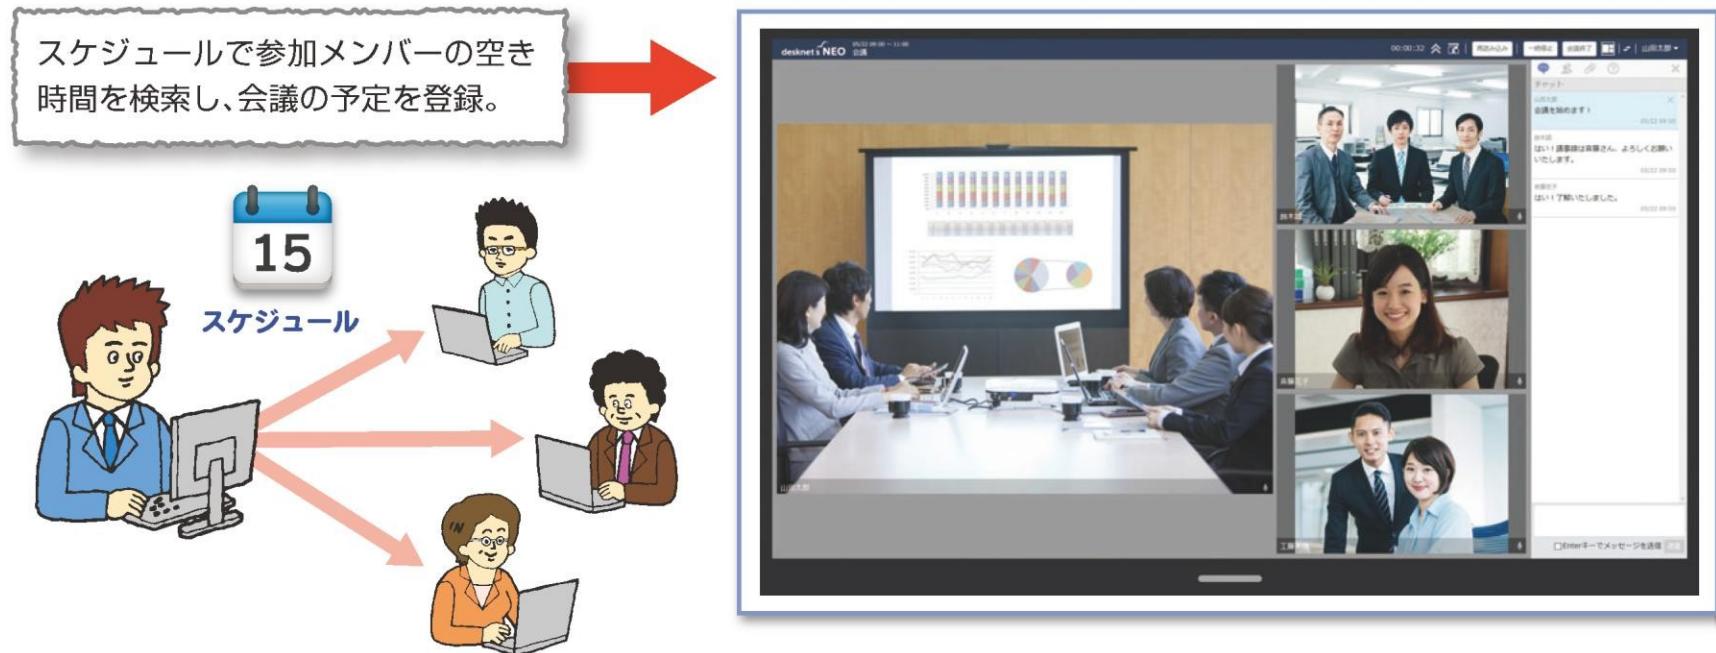

AppSuite(アップスイート)は、紙やExcelで行われている業務を、社内システム化できる、業務アプリ作成ツールです。

これまで使用していた書式と同じものを再現できるほか、業種別の多数のアプリテンプレートを利用して、自社向けにカスタマイズすることもできます。

書類作成をグループウェア上でシステム化することができ、スタッフや管理者の業務負担も軽減。ペーパーレス化を促進します。

NEW! コミュニケーションを活性化 だれでも簡単に利用できる新機能「ウェブ会議」

ウェブ会議はグループウェア上で使用できるので「導入・初期設定」「参加メンバーの登録」「会議の日程調整」といった面倒な作業ややり取りから解放されます。思い立ったら“すぐ”会議が開催できるようになります。

ウェブ会議が誰でも簡単に利用できるようになると、コミュニケーション不足になりがちな部署間、拠点間のメンバー交流や情報共有も活性化します。

document
management

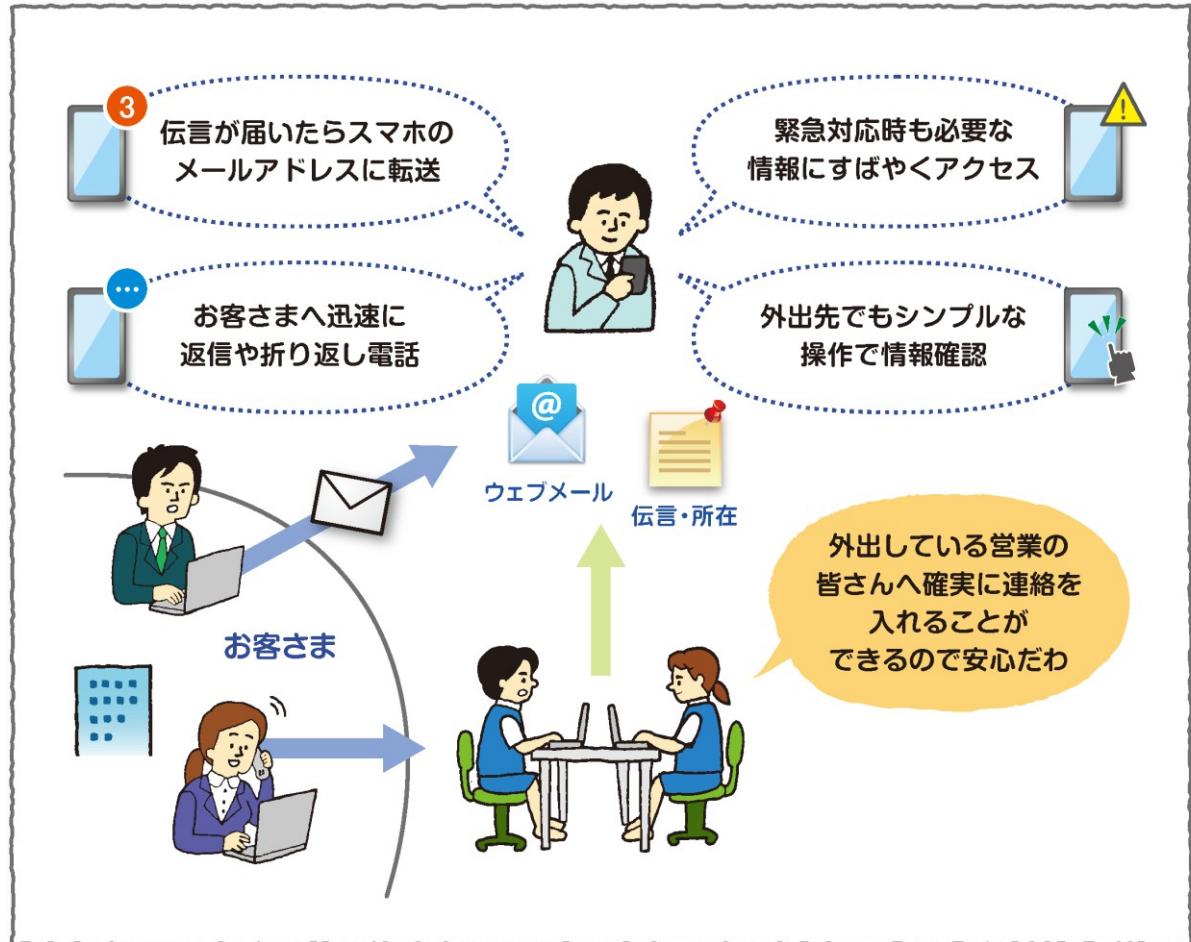

If various documents are shared at the head office and at each site in accordance with ISO 9001 certification regulations, physical replacement work is required when documents are updated. However, by using the document management function, the documents can be shared simply by updating the relevant documents. This can contribute to a paperless work environment.

reduction of working hours

Quick information sharing on the go dramatically improves customer response time

Webmail

Messages & Whereabouts

Salespeople are given smartphones to utilize webmail, messages, and whereabouts. Since they can check messages from customers and e-mails from customers even when they are on the go, and share important information on their smartphones, the response time in responding to customers has dramatically improved.

Compact.

スマホ対応

neotweet

Neotui, with its in-house SNS functionality, allows you to build a communication environment that invigorates the company, bringing bases and employees physically closer together by sharing trivial information on a daily basis and motivating each other.

Communication ④

Electronic meeting rooms provide a place for employees to exchange information without the opportunity to meet face to face.

electronic conference room

Electronic conference rooms are used as a place to exchange information among staff members who are located in distant workplaces or who do not have the opportunity to meet each other on a regular basis. Improvements in communication can be expected, such as the use of quality control information and system FAQs.
